ID WORLD أبو ظبي

Under the patronage of
H.H. Sheik Saif Bin Zayed Al Nahyan,
Deputy Prime Minister and
Minister of Interior of the UAE

Endorsed by:

Emirates Identity Authority

European Commission

Hosted by:

ECSSR Abu Dhabi

Dear Attendees,

As we prepare to welcome you to ID WORLD Abu Dhabi 2013. Technological change surrounding identities continues to fuel the digitalization wave. The widespread use of mobile devices, the expanding reach of broadband networks and the vast amounts of data being exchanged and communicated in every industry, all contribute to altering the way information is shared leveraging on identities.

We see new delivery models emerging with regard to services to citizens, connecting them seamlessly with their governments via their e-ID. Similarly, in supply chains goods are reduced to a series of identifying data complexes providing added value to logistics providers. This presents a series of challenges and, in some cases threats, to those whose responsibility is to manage, control and protect globally mobile people and goods. At ID WORLD Abu Dhabi we connect the dots in all these respects.

The ID Revolution also sees borders become essentially digital, rather than physical, boundaries, thus creating an 'ID divide'. A person or asset, being tracked, identified and authenticated, travels in or out of a country more and more on the basis of the digital information, which pertains to him, her or it. Disruptive identification technologies are also playing a major role in forensic science, which is expanding beyond criminalistics to the wider security needs of the modern era.

All this calls for governments, private enterprises and other organizations to embrace the change and realize the significant global economic value that the digitization wave can bring, stepping up their productivity, communications and services. At ID WORLD Abu Dhabi 2103, we explore how transformation of effort in this way can achieve new business growth in the case of commercial enterprise and maximum social inclusion in the case of public authorities and governments.

Sophie B. de la Giroday
President, Wise Media
Host of the summit

Plenary Sessions

Wise Media's summit in the United Arab Emirates is an influential thought leadership symposium offering the exclusive chance to meet with a global community of key decision makers, from both the public and private sectors. The summit investigates issues and challenges surrounding modern ICT infrastructures and identification schemes, illustrating their impact on today's societies in terms of security, mobility and traceability.

ID WORLD Abu Dhabi succeeds at a world-class level due to its unique formula of high-profile visionary statements and technology updates being challenged in a public debate, engaging a highly select audience.

The cardinal EMEA event on ICT-driven innovation within citizen-centric services, secure transactions, mobility and transparent supply chains, enjoys the privilege of being hosted by the UAE Government, endorsed by the Emirates Identity Authority and the European Commission.

Hyatt Capital Gate, Abu Dhabi

P.O. Box 95165,
Abu Dhabi, United Arab Emirates
Tel: +971 2 596 1234
Fax: +971 2 596 1235

Wise Media has selected a world famous landmark for Abu Dhabi as the official recommended hotel for the guests of our sixth summit in the United Arab Emirates: the Hyatt Capital Gate.

Enjoy your stay at Abu Dhabi's most astonishingly designed skyscraper, a shining new symbol of the UAE's capital. Soaring at 160 meters above the ground, this gravity-defying building leans a staggering 18 degrees and has been certified as the "World's Furthest Leaning Manmade Tower" by the Guinness Book of World Records. The hotel offers 189 five-star hotel rooms and luxury hotel suites occupying the 18th to 33rd floors of the Capital Gate building. It has a contemporary and luxurious design with panoramic views from floor-to-ceiling windows.

Staying at the recommended hotel

Wise Media can recommend different hotels for your stay in Abu Dhabi and has reserved a block of rooms at the Hyatt Capital Gate Hotel for ID WORLD Abu Dhabi delegates from February 11 to 12 that can be booked at preferential rates. Due to the limited number of rooms available, a "first come, first served" policy applies.
